

What is a  
**HELICONIA?**

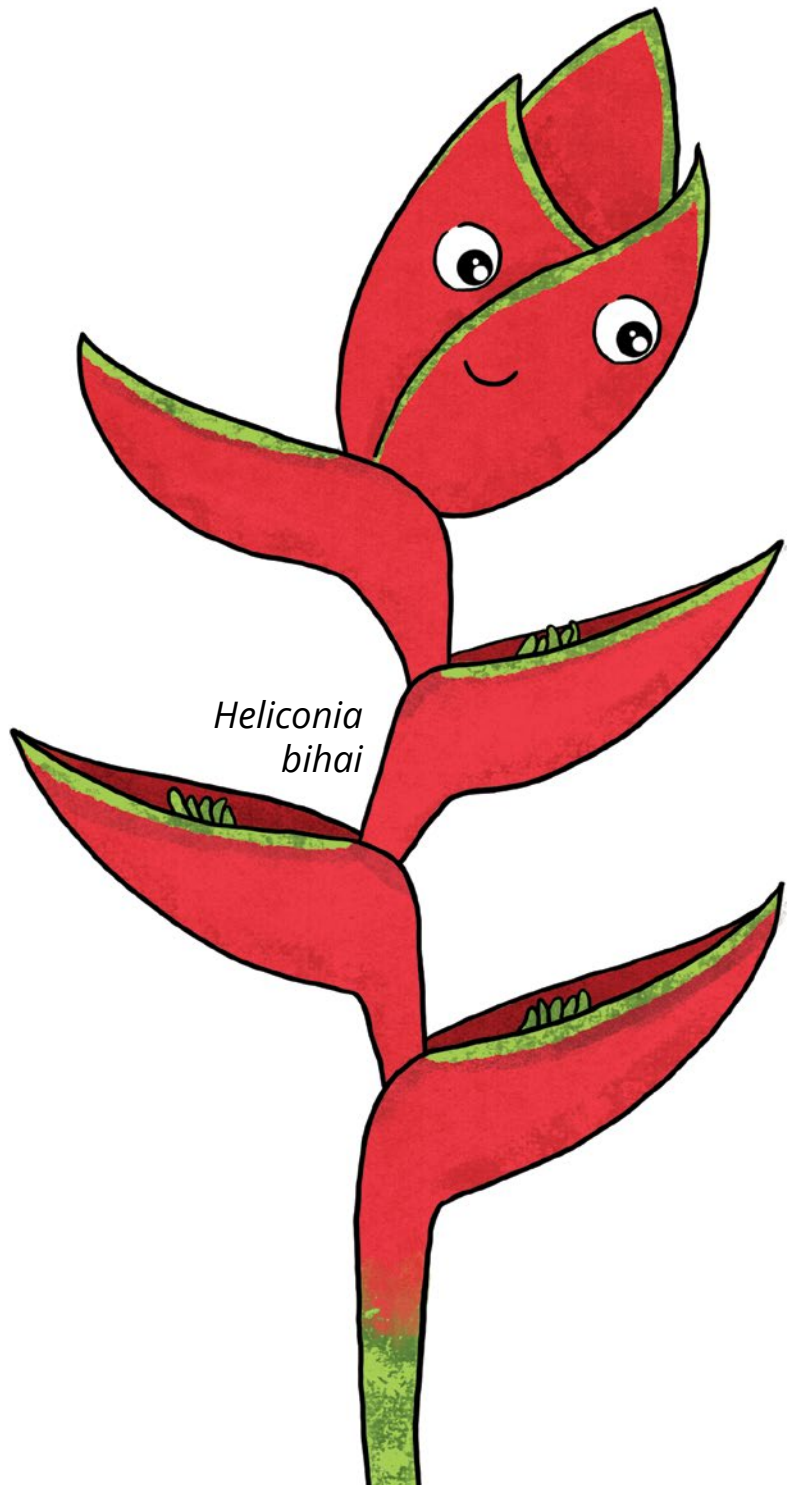

Storyboard Dr. Nicholas Hellmuth  
Illustrations Mariana Cabrera

Heliconia have the  
most awesome flowers!

*Heliconia  
bihai*

Hummingbirds **pollinate**  
many Heliconia plants.

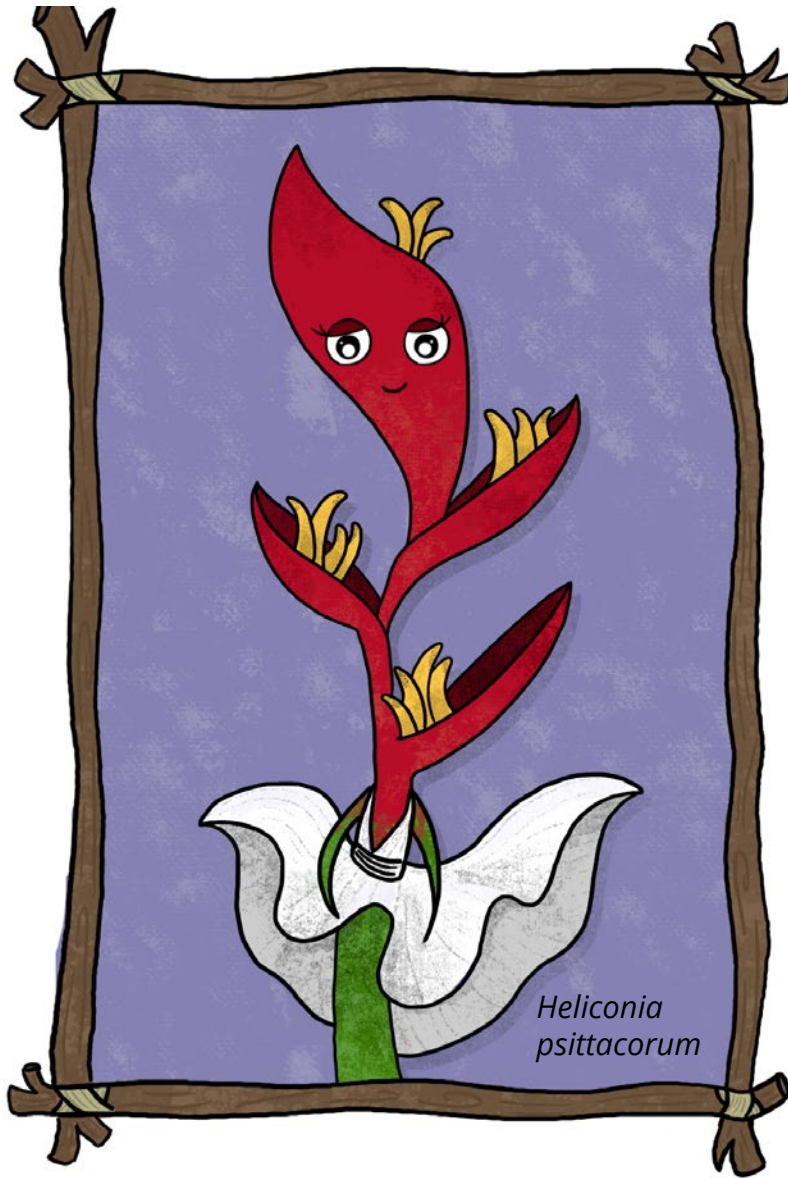

Heliconia prefer  
lots of sun.

But they can survive in  
a garden as long as  
they get good sun at least  
several hours a day.

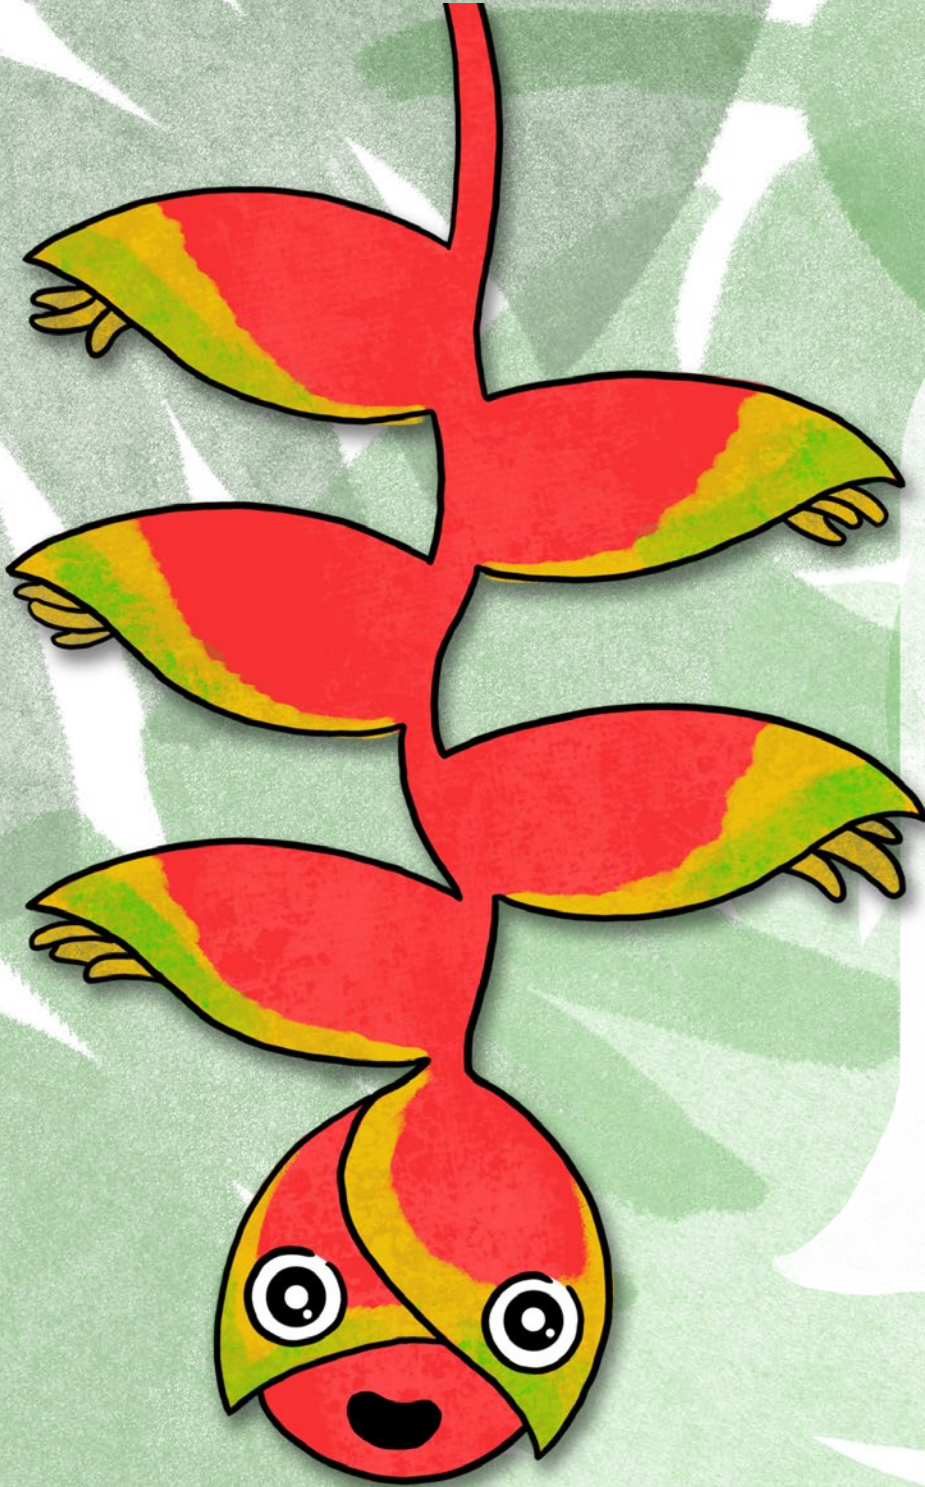

We heliconia are  
very **photogenic**.

So you can practice taking photos of  
us to take home to show your family,  
friends, and business colleagues.

Learn about the beautiful flowers of the Heliconia genus! There are many different species in Guatemala, Mexico and Belize, each of them with unique characteristics.

MayanToons are produced by the 100% Guatemalan team of FLAAR Mesoamerica, coordinated by FLAAR (USA).
