# AMAZING FLOWERS THAT BLOOM AT NIGHT

Storyboard  
Dr. Nicoholas Hellmuth  
Illustrations Valeria Avilés

Have you seen how the  
night flowers bloom?  
It's just amazing!

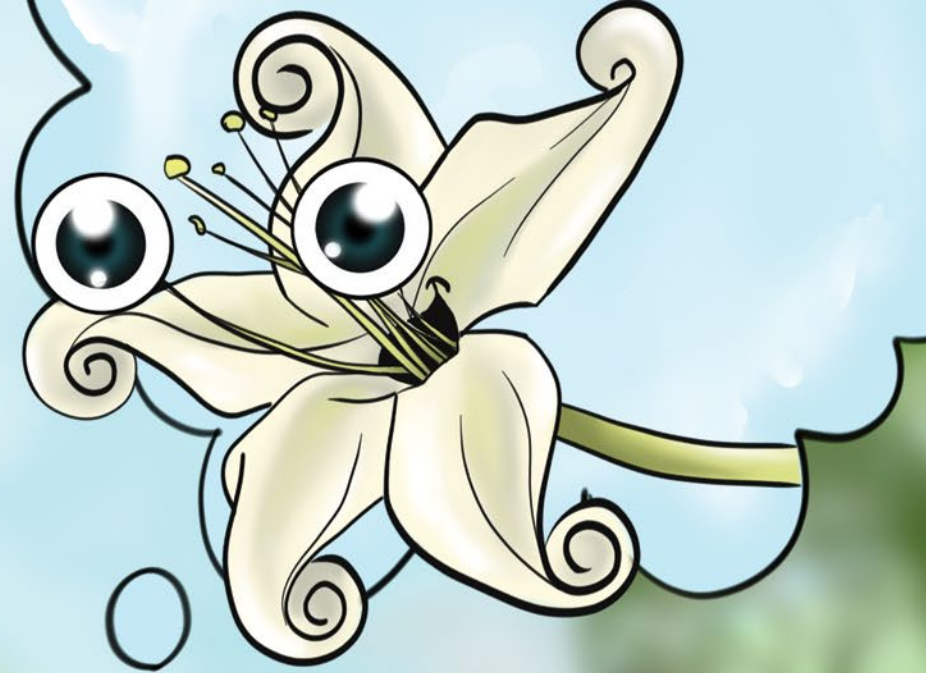

Not only they are beautiful  
and have delicious aroma...

but they help create  
different products.

That's the case of  
*Ipomea alba*, which  
is a rubber  
vulcanization plant.

Also, they feed us with  
their fruits,  
as *Cereus* does with the  
delicious and colorful  
pitaya.

That's how we help each  
other out!

I hope you enjoyed learning  
about night blooming flowers.
